

Taipei Declaration on Global Development of Health in All Policies

We, the participants in the 2013 Global Health Forum in Taiwan:

- Note that good health is an integral component of human-centered development and is essential for the development of individuals, families, and communities.
- Note that population health is influenced by policies in all sectors, including but not limited to the economy, education, international trade, transport, social welfare, and housing.
- Pledge to advocate for health promoting policies in all sectors, both as a means to achieving better health and as a contribution to overall human development.

We call on all those who have an influence on policy, in government at all levels, civil society, academia, and the media, to:

- Actively seek political commitment from leaders of all levels.
- Build intersectoral partnerships to support actions across all levels of government and across government.
- Engage in partnership with academia & national and international professional organizations to promote the acquisition, dissemination and implementation of the best available evidence for policy.
- Enhance capacity for effective health policies, among individuals and organisations.
- Establish mechanisms by which all those responsible for policy can be held to account, including timely and accurate information and mechanisms for monitoring.
- Create capacity to undertake health impact assessment of all policies.
- Incorporate health impact assessments in the evaluation of policies in all sectors.
- Encourage engagement of civil society in the implementation and evaluation of policies.
- Hold to account those organizations, including but not limited to the tobacco industry, whose actions are damaging to health.

We call on the public health organizations (including IUHPE, WFPHA, EUPHA, APHA, European Health Forum Gastein, IHF etc) to advocate for and support capacity building in pursuit of Health in All Policies by means of:

- Evidence-based research, conferences, training programs, accreditation of public health education, development of appropriate tools, benchmarking, and international collaboration.

臺北宣言：全球協力，發展「所有政策面向的健康工程」

Taipei Declaration on Global Development of Health in All Policies

身為 2013 臺灣全球健康論壇的與會者，

- 我們正視：良好健康是「以人為本的發展」中，不可或缺的一環，是個人、家庭與社區發展的根基。
- 我們提醒：群眾健康會受到各部門政策的影響，包括(但不限於)經濟、教育、國際貿易、交通運輸、社會福利、住居等。
- 我們誓言：在各部門倡議對健康有益的政策，既是改善健康的有效方法，亦對增進人類整體發展有所貢獻。

我們呼籲所有對政策制訂具影響力的人，包括各層級的政府部門、民間團體、學術界及媒體等，必須：

- 積極尋求所有層級領導人的政治承諾。
- 建構跨部門的夥伴關係，以支持各層級政府間以及政府部門間的行動。
- 建立與學術界、國內及國際專業組織間的夥伴關係，以增進政策所需最佳實證之獲得、傳播及採行。
- 增進個人及組織有效健康政策之能力。
- 建立政策的責任機制，包括適時而精確的資訊，以及監測機制。
- 建構對所有政策執行健康效益評估的人力。
- 將健康效益評估納入所有部門的政策評價中。
- 鼓勵公民社會積極參與政策的執行與評價。
- 持續究責造成健康危害的組織，包括菸草業者及其它危害健康的產業。

我們呼籲公共衛生組織（包括國際健康促進暨教育聯盟、世界公共衛生聯盟、歐洲公共衛生學會、美國公共衛生學會、加斯坦歐洲衛生論壇、國際醫院聯盟等）藉由以下策略，共同倡議 Health in All Policies，並支持相關專業能力之發展，包括：

- 以實證為基礎的研究、研討會、訓練計畫、公共衛生教育之評鑑、發展合適工具、標竿學習、國際合作。
